**Job description: SAP Security / Authorizations Consultant**

**Industry:** Information Technology and Services and Information Services
**Employment type:** Permanent
**Experience:** Mid-Senior level
**Expected travel:** 50%
**Location: Zurich, Paris or London**

Join us on our journey to disrupt the industry with our innovative security solutions and assist companies in regaining visibility and control over their authorizations.

You will be required to lead project activities, including implementation, training, consulting and support work related to Access Informer Security Solutions and the auditing of authorizations within SAP and across platforms.

**KNOWLEDGE AND EXPERIENCE:**

- Detailed knowledge of SAP Security and Authorizations
- Experienced in designing, maintaining and reviewing SAP roles
- Experienced in implementation and support work
- Knowledge of SAP GRC Access Control and Risk Management
- Knowledge of SAP Identity Management (SAP IDM) or other IDM products is an advantage
- Interest in learning other security models such as authorizations in Active Directory, Sharepoint and Network Shares
- Fluent or native English speaker. Other European languages a plus
- Strong written and verbal communication skills

If you have the required skills, experience, and are interested in the role, then contact us today and send your CV (.doc or pdf format) at jobs@accessinformer.com.

All applicants must be legally authorized to work in the above mentioned locations. No agents.
